THEORY ASSESSMENT

Complete the following questions using black or blue pen or fill out on your computer. Please ensure you have answered all questions, fully filled out your details on page 1 and signed the declaration on page 12 before sending back to Your Licence P/L for assessment.

1. What are the four (4) main types of OHS/WHs legislation documents?

2. Explain what "Duty of Care" means to you.

3. List 3 people who have a Duty of Care responsibility.

4. What are Safe Work Practices?
5. List 5 examples of hazards that may exist on a site where mobile plant is being used.
6. What factors are used to determine risk level?
7. What are the six (6) levels in the Hierarchy of Hazard Control from most effective to least effective?

8. List three (3) examples of personal protective equipment (PPE) that you might have to wear on a worksite.

9. List three (3) examples of workplace communications that you are likely to use during plant operations or High Risk Work.

10. List three (3) ways you can determine the weight of a load.

11. What are three (3) items of information you could find in material safety data sheets (MSDS)?
